

Hi-Tek Cleaner***Technical Data Sheet***

GENERAL INFORMATION: This industrial strength *HI-TEK Cleaner* offers high performance for a variety of cleaning requirements occurring in office, laboratory and production areas. It is an ammonia-fortified formulation designed to remove heavy residues of dirt, oil, or grease. The formulation is free of silicones and liquid or solid surfactants which often leave a film after use. *HI-TEK Cleaner* leaves a clean residue-free surface as well as a pleasant odor.

The exceptional advantage of *HI-TEK Cleaner* over other cleaners is that although it is effective for heavy industrial cleaning, it is also a superior general cleaner for office and laboratory. It may be used on glass, tile, stainless steel, painted surfaces, mirrors, porcelain, and chrome with the same high performance results.

DIRECTIONS FOR USE: Shake well before using. Hold can in an upright position 10 to 12 inches from surface and direct spray toward the middle of the area to be cleaned. Care should be taken to avoid breathing concentrated vapors as with any aerosol product. After application, wipe with a paper towel or a clean, dry cloth.

IMPORTANT NOTICE: All statements and technical data contained herein are based on tests we believe to be reliable, but the accuracy of completeness thereof is not guaranteed. It is recommended that the buyer test this product to determine its suitability for his application before use. **SAF-T-LOK International Corporation** is not responsible for loss, claim or damages resulting from use of its products.
