

## PRODUCT DESCRIPTION:

**SAF-T-EZE Silicone-Lube** is formulated from the highest quality silicone fluids to provide an extended range of lubrication where conventional hydrocarbons and oils vaporize. These silicone fluids penetrate the surface of plastic and rubber as well as metals to provide a non-tacky film of lubrication.

## GENERAL INFORMATION:

**SAF-T-EZE Silicone-Lube** exhibits the same viscosity at high and low temperatures to provide uniform lubrication up to a temperature of 500°F. This product is colorless, odorless and non-staining. It provided excellent release properties for metallic and non-metallic surfaces.

## PHYSICAL PROPERTIES:

<b>Color</b>	<b>Clear/Transparent</b>
Temperature Range	-60°F to 500°F
<b>Flash Point:</b>	<b>-132°F (CC)</b>
Specific Gravity	0.64 gm/cc
<b>Surface Tension:</b>	<b>21 dynes/cm</b>
Solvent:	Hexane

## APPLICATION:

- Reduces friction and lubricates conveyors
- Non-staining and odorless
- Release and parting agent
- Broad temperature range
- Performs on metal, plastic and rubber products

## USES:

- Conveyor Chutes
- High Temp Bearings
- Electrical and electronic equipment
- Mold release
- Guides
- Rails
- Ovens
- Cutting equipment
- Incidental food contact parts

**IMPORTANT NOTICE:** All statements and technical data contained herein are based on tests we believe to be reliable, but the accuracy of completeness thereof is not guaranteed. It is recommended that the buyer test this product to determine its suitability for his application before use. **SAF-T-LOK International Corporation** is not responsible for loss, claim or damages resulting from use of its products.

### TECHNICAL SUPPORT

Our technical support team stands ready to assist you with your technical questions regarding your SAF-T-LOK products. On-site support when necessary within 24 hours.
